## REPORT OF FIRE WARDEN

---

In submitting my annual report as Fire Warden, it is again a pleasure to say that we did not have any bad brush fires during 1941.

The reason for not having any bad fires was due to the men getting to the fires and getting them out before they got a good start.

We must be ready again this year because we have a greater amount of slash in town than we have had before. If a fire got a good start on a windy day it might take the whole Town.

We must be careful and anyone having brush to burn should do so before the snow is all gone.

Anyone using incinerators should cover them with a wire screen of not less than six wires to the inch. This is the new law and should be obeyed.

## REPORT OF SUPERINTENDENT

---

*To The School Board and Citizens of Fremont:*

I herewith submit my third annual report as Superintendent of Schools:

The facts and figures herein presented are for the school year 1940-41 but I shall discuss events which have happened since July 1941, as well as before.

At the time of writing this report, February 1942, our Country, for the second time in a generation, is engaged in a great war. This war is unlike the first of 1914-18, which was a war of aggression on the part of a militaristic European nation, involving a number of countries before the Armistice was signed. World War No. 2 is a world revolution with the major "HAV NOT" nations, ("have not" in the terms of material resources) combined to overpower all the "HAVE" nations, for the purpose of looting and for political domination.

The question arises in our minds, how could a group of nations which were lacking in resources before 1918, and completely disarmed in 1918, ever rise to a position of such tremendous military power in the space of a few short years? The answer is EDUCATION.

A people were sold on an idea that the one way out of their economic want and political instability was through complete subjection to one leader. This is known as the Leader Principle, or the Totalitarian State. Let me urge all of you to read in the February issue of the Reader's Digest the article entitled "Educating for Death" by Gregor Ziemer. In which the picture of how the Nazis have been able to build up and maintain their power is ably portrayed.

The above is simply a brief summary pointing to the importance of Education. There are many trite, but true, sayings which have pointed out this truth for many years, such as, "As the twig is bent, so is the tree inclined", etc., but we must not fail to heed the lesson which we find in the article "Educating for Death", and reversing the ugly purpose, but adopting some of the earnestness of the method, start educating our boys and girls for Life of Democracy.

What I am trying to say is that we must inculcate by precept and example and all of the modern teaching skills available a real enthusiasm for the Democratic Way of Life; a deep and burning patriotism and an undying determination that the basic principles of freedom of speech; freedom of worship; freedom of press, and the equal rights of all before the law, shall be defended unto death.

This type of education can only be done by those who are themselves imbued with a deep feeling for the Democratic Way of Life. This means men and women with character. Hence, it is of tremendous importance that in the stress and strain of fighting this war of wars, we do not lose sight of the importance of the educative process and its meaning in terms of men and women (who are boys and girls today) who will carry on the democracy of to-morrow. We must be careful even if it involves sacrifice on our part, not to lessen the efficiency and effectiveness of our schools. This year the underlying theme of all the teachers in this Union has been Educating for Democracy, and the devices that have been used by the different teachers in doing this have been many and very interesting. The morning exercises have taken on a new meaning; the pledge of allegiance to the Flag is given with a new reverence; the Star Spangled Banner is being sung with a renewed enthusiasm; plays have been given; pieces have been spoken; and in countless ways the meaning of democracy, its great privilege and burdensome responsibilities have been taught. OLD GLORY IS SHINING WITH A RENEWED BRIGHTNESS.

The following is list of those pupils who had perfect attendance:
